Acciaccio

3 x 24 SBN

Bronzo

* Precautions: do not use acids or bases for cleaning after laying or for ordinary maintenance; we suggest the use of mild products with pH 6.5 - 7.5 such as STONETECH'S "ALL-PURPOSE" CLEANER.

Steelwork has atomized microbeads of different metals incorporated in the glaze, which, after lapping, presents metallic reflection effects like that of polished iron alloy. As with natural stones and cotto materials, careful maintenance procedures must be followed to maintain its special aesthetic properties.

**** 2mm joint recommended for ALL RECTIFIED tiles!**
